Plasma Donor HOME DONATE PROFILE LOGOUT

IBM PLASMA DONOR APPLICATION

Let's not wait for a long time in search for a Plasma Donor. Here is the solution. We help by connecting you with all the donors available near you. You could raise a request for Plasma Requirement. Every Donor will undergo COVID-19 Test before donation.

Need for Plasma Donation: Why?

The Plasma Therapy is an approach to treat the COVID-positive patients and help them to recover. Plasma Therapy is considered to be safe and promising. A person who has recovered from COVID-19 can donate his/her plasma to a person, who is infected by corona virus.
